Technical Skills

Languages : Python , JavaScript

Frontend : HTML , CSS , React.js

Backend : Flask , FastAPI

Database : MySQL

Tools & DevOps : Docker , Postman

Others : OpenAI API (basic) , DSA

Internship

Python Full Stack Developer(Virtual)

January 2025 - March 2025

EduSkills Foundation

- Developed and deployed a full-stack web application using Python (Flask/Django), JavaScript, and SQL, with focus on scalable backend and responsive UI design.
- Designed RESTful APIs and integrated them with front-end interfaces to enable seamless data exchange and real-time updates.
- Implemented authentication, database management, and error handling modules to improve application security and reliability.
- *Collaborated in an agile environment using Git/GitHub for version control, enhancing teamwork, debugging, and end-to-end project delivery.*

Projects

WhatsApp Assistant | Python, n8n Workflow Automation, API Integration

July 2025 - Aug 2025

- Built an automated WhatsApp assistant leveraging n8n workflows to streamline communication and task management.
- Integrated third-party APIs for sending and receiving WhatsApp messages, enabling real-time user interaction.
- Implemented automation workflows for notifications, reminders, and message handling, reducing manual effort.

[Github](#)

Virtual Mouse | Python, Computer Vision, OpenCV, MediaPipe

May 2025 - June 2025

- Developed a virtual mouse system using computer vision to control cursor movements and mouse actions through hand gestures.
- Utilized OpenCV and MediaPipe for real-time hand tracking and gesture recognition via webcam input.
- Implemented gesture based functionalities such as cursor movement, left & right click and scrolling to enhance hands-free interaction.
- Optimized performance for smooth and accurate tracking, enabling real-time responsiveness.
